近年來，我國的科技發展已獲得國際推崇與肯定，儘管如此，在女性為少數人才的科技領域中，女性科技人已展現多元、包容及創新的特質，也逐漸形塑出獨特的領導力，在科技領域中逐步發揮影響力，樹立女性領導新典範。鼓勵更多女性加入科技的行列，建立性別友善的學習與工作環境和多元包容的團隊合作是世界的潮流。

2024 年女科技人大會的主題為「多元共融 共榮互好」，鏈結女性科技人，發揮影響力，提昇本國的科技性別平等。我們誠摯地邀請您一同參與，共創美好未來。

The advances in science and technology of Taiwan have been well recognized internationally. The participation of female scientists/technologists is still very less. Nevertheless, they have gradually exerted their influences in the STEM fields and become the role model of female leadership. To encourage more girls and women to join the STEM pipeline, establishment of gender-friendly learning and working environments as well as diverse and inclusive team works is a global trend.

In 2024, the theme of Women in Science and Technology Convention (WiST) is "Equity, Diversity, Inclusion and Well Being". We wish to connect female scientists and technologists to improve gender equality in STEM pipeline in Taiwan. We sincerely invite you to join the 2024 WiST for a better future.
